

EDUCATIONAL DATA SYSTEMS

Dear CELDT District Coordinators:

Twenty Scoring Training of Trainers (STOT) workshops were completed throughout the state from April to June 2009. The STOT workshop provides training to individuals who train California English Language Development Test (CELDT) examiners for the 2009-10 school year. The test examiners are responsible for administering and scoring the CELDT locally. The CELDT must be administered to students by **trained** test examiners.

Individuals who will train CELDT examiners during the 2009-10 school year **must** attend a STOT workshop to learn about scoring the 2009-10 Edition of the CELDT, including the new reading and writing test questions for kindergarten and first-grade students. If the appropriate persons in your district have not attended a 2009 STOT workshop, please make sure that they register for and attend one of the make-up workshops.

Four make-up workshops will be held in August on the listed dates at the following locations:

August 4	Stockton
August 6	San Jose
August 12	Long Beach
August 13	San Diego

If there are additional persons in your district you would like to have trained, they may also register for a make-up workshop. Make-up workshop registration is now open and will be processed on a first-come, first-served basis, subject to workshop space at each site.

To register, go to www.celdt.org and click on "Workshops" and then click on "Scoring Training of Trainers STOT."

If you have any questions regarding the make-up STOT Workshops, please send an e-mail to workshops@celdt.org or call the CELDT Customer Support Center at 1-866-850-1039.

Sincerely,

CELDT Project Team
